SERVICE AND ENGINEERING

PRE-DOCKING INSPECTION

Check the real condition of equipment, help SM to make proper budget and necessary preparation for coming docking.

SUPERVISION OF DOCKING REPAIRS

Provide technical supports for repairs, assist SM to control progress and quality.

MAINTENANCE/REPAIRS ON BOARD

Arrange service team on board, carry out repairs and restore equipment to working condition.

IN-WORKSHOP SERVICES

Professional workshops for hydraulics repair/recondition, equipped with multifunctional Test Bench.

Armed with experienced engineers, technicians and fitter teams, we specialize in services on:

HCO, CRANE, GRAB, WINCH/WINDLASS, RORO.

HATCHTEC

EXPERT FOR DECK MACHINERY

Procedures in Service on Board

Pre-docking Inspection

Based on specific work scope standard, after checking over condition of equipment, we discuss with SM on service project and arrange the job ahead to catch schedule. Detailed inspection report illustrated by visualized photos will be presented with descriptions of subjects, repair proposals and recommended spare parts supply.

Customized Planning

After a thorough pre-docking inspection, with our professional experience on deck machinery, we will make a suggestive plan for the docking maintenance, fixing working scopes and spares supplies. Observing efficient and effective principle, our customized service complies with your requirement and reasonable budget.

Spare Parts Preparation

Being approved of suggestive plan and budget, spares and tools are being prepared in schedules. Due to our large warehouses located along main ports and shipyards, spare parts can be delivered on board timely and promptly.

Service on Board

While docking, according to approved scheme, the following scopes will be conducted.

- Supervise for docking repair and guarantee the whole progress in quality
- Restore equipment back to working condition with our professional knowledge and experience
- Deliver the damaged parts to our nearby workshop to overhaul
- Carry out UT test and overload test by our certified engineer if necessary

Follow up and Guarantee

Our spare parts are guaranteed by authorized institution within certain valid period. We will follow up stage of repaired subjects after departure and assure your vessels are always in good condition.
